Re: Recodification of City Code

Pursuant to Ordinance 33-20, the Code of the City of Pensacola, Florida has been recodified, effective December 31, 2020. The new Code can be viewed online at:

Please be aware that portions of the Code were renumbered during the recodification process. You will need to verify applicable code section references when citing to the Code. To assist in finding the new section numbers, there is a “Code Comparative Table – 1986 Code” that can be utilized when the former code section is known.
